Work Experience

2024 – Present
Fullstack Developer - Freelance

In collaboration with GrönaHus and HelloSmart, I am developing a full-stack e-commerce website that incorporates modern web development practices and prioritizes user-focused design.

December 2023 - May 2024
Frontend developer Intern - Digital Fans

As a Front-end Developer at Digital Fans I worked with numerous companies across the board, Including Folkspel, Jakobsbergsgatans, Nova 8, A Retro Tale & Vattenfall. During these projects I learned to work in an agile environment with strict deadlines and deliveries.

Education

August 2022 - May 2024
Frontend Developer - KYH Liljeholmen, Stockholm

In my frontend development education, I learned key skills like HTML, CSS, JavaScript, Typescript, React & responsive design, and UX principles. Alongside, I gained vital soft skills such as problem-solving and teamwork.

January 2021 - August 2022
Programming in C# - NTI, Stockholm

Acquired skills in C# programming, emphasizing object-oriented principles, coding best practices, and software debugging.

January 2021 - August 2022
Computer & Network Technology - NTI, Stockholm

Gained a strong understanding of computer systems, hardware components, and network configuration.

Projects

Independent Project – Carlsonmarc.com

Using Next.js, Tailwind, and Framer Motion, I built a personal portfolio to showcase my projects and skills.

Independent Project – Psychosynthesis Therapy Website

Designed and optimized a WordPress site for a Psychosynthesis Therapy company, enhancing web development and SEO skills

Event company - Westien Event

"Developed a WordPress site for Westien Event, focusing on customization, plugins, and solutions for event management.
